

# "PRO" Puppy Start

## FOR WEANING PUPPIES OF ALL BREEDS AND GROWTH OF SMALL-BREED PUPPIES

Specially formulated for weaning puppies of all breeds and for feeding lactating bitches. During the growth period, nutritional needs vary according to both breed and age. As such, we created **SATISFACTION (PRO) PUPPY START**, made with the best ingredients on the market. It is high in protein (20% fresh boneless chicken and dried egg) and energy (dehydrated chicken proteins, chicken fat and ground brown rice).

It guarantees extraordinary digestibility and absorption of nutrients for puppies of all breeds during the most delicate stage of their lives: **WEANING**.

### Benefits

- It is very important that dogs grow without any excess weight to avoid potential obesity in the future. **L-Carnitine** helps to convert fat into energy, avoiding any potential build-up of fat.

-A high protein and energy content is essential for the quicker growth rate of smaller breeds, which reach adult size in just 6 months.

- The **Yucca** extract significantly reduces the smell of the dog's faeces.

-The **Taurine** helps to ensure a healthy heart and good vision.

-The **Bioflavonoids**, natural cellular antioxidants (vitamins C and E) that come from citrus fruits, encourage the development of a strong and healthy immune system.

### Ingredients

Fresh boneless chicken (20%), rice (20%), brown rice, dehydrated poultry proteins, chicken fat, beet pulp, brewer's yeast, hydrolysed chicken liver, dried whole egg, monocalcium phosphate, citrus extracts rich in bioflavonoids (0.15%), taurine, yucca schidigera extract, L-Carnitine, vitamins and minerals.

### **Average analysis**

**Moisture: 8%, Protein: 32%, Crude oils and fats: 21%, Crude fibres: 2%, Inorganic matter: 7%, Calcium: 1.5%, Phosphorus: 1%, Vitamin A: 21,351 IU/kg, Vitamin D3: 1,954 IU/kg, Vitamin E (alpha-tocopherol): 142 mg/kg, Biotin: 0.24 mg/kg, Copper: 14.23 mg/kg, Iron: 231 mg/kg, Iodine: 2.8 mg/kg, Manganese: 105 mg/kg, Zinc: 197 mg/kg, Selenium: 0.32 mg/kg, Taurine: 1,002 mg/kg, L-Carnitine: 50 mg/kg.**

### **Preservatives and antioxidants**

**Thanks to the high quality of the ingredients, it is also suitable for other stages of life or in other situations:**

- Suitable for the growth of small or medium breeds until the end of the growth period (8 to 12 months), especially in very small or dwarf breeds.**
- Suitable for puppies with sensitive digestion or an intolerance to corn or other ingredients that are difficult to digest.**
- Suitable for dogs recovering from illness or in need of easily digestible food, thanks to both the kibble size and its very high level of absorbency.**
